

**DuFlon<sup>®</sup>**

Leading the way in Fluoropolymer Processing

Duflon manufactures a wide range of components for pumps, including casings, open and closed impellers, rotors, cans, shafts, bearing carriers and other moulded and machined components in a variety of materials such as fluoropolymers, polymers, elastomers and metals.

All products are custom manufactured to individual customer specifications.

# Pump Components

**Components available—fully lined or unlined**

- Casings (Sand or Investment Cast Bodies)
- Open Impellers
- Closer Impellers (one piece design OR welded options)
- Cans / Isolation Shells
- Bearing Carriers
- Shafts
- Back Plates
- Rotors
- Lined Magnets
- Other machined components (seals, bellows, balls etc)

**Lining Material Options:**

- PTFE, PFA, ETFE, UHMWPE, Modified PTFE, PP, PVDF or conductive options.

**Material Filler Options:**

- Ceramic, Carbon, Glass, Bronze, Carbon Graphite, MOS2, Alumina, Boron Nitride and others.

**Body / Metallic Materials:**

- Most grades of carbon and stainless steels, ductile irons and other alloys to meet customer specifications in accordance to ASTM, DIN or BS standards.

**Manufacturing Processes:**

- Isostatic, Injection, Compression and Transfer Moulding
- Blending
- CNC as well as Conventional Machining
- Sand & Investment Casting
- Powder Coating, Painting and Spraying
- Fluoropolymer Coating

Please contact Duflon for your specific requirements.
